The President and Members of the Special Commission

Madras Dist. Records vol. 1253 19616

Gentlemen

I have the honor of transmitting to your Board my report, and part of the details of it respecting the permanent settlement of the Revenue of the Dindigul Province.

2 The bulk of the package prevents the whole being sent this evening, the next tappal will take the remainder

3 I have sent the general list of the details to shew all, and a partial register of those sent this evening.

4 I cannot omit an opportunity of expressing my sense of Mr Watts assiduity in rendering every assistance in his power to hasten the transmission of this report, as well as of his general diligence, which gives me the satisfaction of feeling that he will very soon prove himself worthy of a higher station

5 In a report involving such material interest of the Country and thence full of detail, I have feared to be more prolix - but I shall be happy to give any personal explanation and I trust labour I have had in

forming

forming it will prove to your Board - My apology for its delay in transmission

I have the honor to be with great respect

Gentlemen

Your very obedient

humble servant

(Signed) J. B. Hurdis

Collector

Dindigul
6th April
1803.

1. In bringing before your Board the Schedules for the permanent System of Revenue in the Dindigul province, I shall with leave of your Board endeavour to shew with as much conciseness as possible, the mode the Survey has permitted me to form in settling the Zemindaries, and the detail thence arising from the lowest Ryot, with the value of his Farm, to the first Zemindar and the value of his Zemindary. -

2. This extent I purpose shewing in its full detail as settled from the Survey and its Jumma as Collected during the several Fusly years that have passed since its formation and that the Lands rent may be solely and wholly seen, I have exhibited that only in the Statement, totally subtracting all Enaums Shotryem and Devastanum Lands, and all heads of Sonadyem each particular branch of which will be separately treated on hereafter. -

Vide an abstract Statement of Zemindaries

Vide an abstract State ment of Zemindaries

3 This Statement shews the Dindi-sul District, and the Sequestered Pollams Converted [which?] into forty Zemindaries, the Number of Villages composing each Zemindary the resources in Water for the Cultivation, the Census of the population; the agricultural property of the Ryots, the immediate resources of the Zemindary in its Number of Looms, Shops and Houses.

4 It enumerates the Grants from the Sircar, distinguishing the Number of those who inhabit one Zemindary or Village, from those who inhabit the neighbouring Zemindary or Villages the Numbers under the head Oolcoody being the actual Number of Ryots Vizt. 16,146 who chiefly possess the actual Cultivating property mentioned in the preceding Columns whereas the Numbers noted as Pyacoodies are of those same people, but possessing Lands in Zemindarys or Villages, within the precincts of which they do not reside.

vide Col. O.

5 It Shews also the Number paying Sorndayem to the Sircar which will in its own place be separately explained.

vide Cols. 1, 2, 3, 4, 5 & 6

6 The first part of the abstract that demands attention after the preceding Columns is the total Ayacut or Lands, with one exception only exclusively the property of the Sircar, which is distinguished by the Survey under its appropriated designation of Poonjee and Nunjee, giving in the forty Zemindaries Goontahs 1,69,820-12 or Cawnies

one Goontah contains English square ft. 2503 1-3 Inches
one cawney contains square feet 56700 ..

vide Cols 7, 8, 9, 10, 11 & 12. 7. The Land in dispute forming the above noted exception will be an addition merely as Land to the Zemindary or to the Poligar with whom the dispute is, as may be settled — the detail as regarding what is not productive, is now wholly deducted from the Sircar Land, in order that investigation may be made without difficulty

8 It however happens that in several of the Lands under dispute the Sequestration of the Pollams renders the whole the Circar property — what therefore was the Contest with the Polligars is now simplified to the dispute between Villages and on the evidence given, there will be little Cause of future dispute

9 This deduction thus made leaves to the Circar as its own exclusive right in Poonjee and

13. I have thus far Trespassed on the indulgence of your Board, presuming that any other

detail

detail of Lands which are at present unproductive would at the present part of the report be unnecessary they will be noted on when the advantages which may arise to the Zemindar from extended Cultivation are discussed.

14. The part of the Statement now to be noticed, is that which begins to shew the value of the lands under Cultivation, and the first of those, are such as come under the description of Garden Lands (Baughut). *(Vide Col. 55. / Do. Do.)*

15 The explanation of the particular rate of assessment on the aggregate, would give too large a detail I have therefore (and I trust your Board may not disapprove) thought it best to exhibit the detail of the Toddycomboo Zemindary, the whole of which applies to the whole of the forty Zemindaries.

16 With this view I beg leave to request the attention of your Board to the Mouzawar or Village Statement of the Zemindaries. In which No. 2 will shew the principal Villages Composing the Zemindary of Toddycomboo, the total Lands and assessment on which are formed the line entered in the Abstract Statement of the Zemindaries and shew the total Goontahs 5825¼ and Cawnies 252⅜ under the head garden Lands (Baughut) in that Zemindary their average

vide Mouzawar and Village Statement

17 This Statement however shews only the Separate and Collective value of each Village on the average of their respective and whole Contents under this express sort of Cultivation. It therefore becomes necessary to shew from the Statement of the Hamlets depending on the Zemindary the quantity and quality of the land giving the assessment, which shews the present Average in each and on both.

Vide Mouzawar Statement

18 Hence in the detail quantity of Land rated according to its quality and Situation and according to the opinion and agreement of all Concerned. Your Board will please to perceive in the total for Toddicombo Village and its Hamlets, the Number of Goontahs 278.9¾ assessed at the Gross sum of 634$^{cts}$. 7$^{fs}$. 15¼$^{as}$ as noted in the Mouzawar Statement and in the totals of the same Statement for Chettenaigputty previously noting the several rates of assessment the Number of Goontahs 303 11½ assessed at the Gross sum of 779.3.7½ these particular Lands of these Villages and hamlets, Separately and Collectively, Composing the value of this branch of Cultivation as before noted, in their respective

respective Villages and Zemindary—

19. In the formation of the Statement of Hamlets depending on this Zemindary—
It was necessary to the proper examination of the Lands to enter into the most minute possible detail of the Farms Composing the Hamlet the Farms are mentioned rather than Villages, because the convenience of the Inhabitants of the Hamlets drew them from their Cusba that they might be nearer to the Lands they Cultivated

Vide Coolwar Statements

20. These are all Lands belonging to the Cusba, but altho each Hamlet has its name it does not partake of the distinction of Villages, as it has not the fixed Bounds in respect to other Villages that its Cusba possesses in respect to other Cusbas—

21. Thus the Statement of the Ryots holding Farms (the Coolwar Statement) became necessary to shew the detail on which the Statement of the Hamlets was founded each individual Farmer being therein noted, with the quantity of the land he holds under Grant from the Collector and to each quantity the specific assessment made by the Survey, and agreed to by the Ryot—

Vide Coolwar Statement

22. In the detail of Comawarputty in

Toddycomboo Cusba your Board will please to see an Abstract Statement of each Ryots Farm and the rate of assessment on the Land each respectively holds under the head Garden land (Baughiet) and in the total of that head will be seen the number of Goontahs 15.. 3 Classed under the heads of Cultivation, and the assessment thereon 32 9. 2 which quantity and assessment is Carried into the Statement of Hamlets and is, one part in the General Estimate average value of the Gardens Lands (Baughiet) of the Village.

23. The same Statement Vizt. the Coolawar Statement of Chittenaigputty applies in like manner to the Statement of Hamlets for the same Village, as the one before noted for Toddycomboo the various rates of assessment for Garden Lands giving on the various holders of the 129 — 13 an assessment of 343. 8. 13 which also is one part of the General average value of the Village and which with its own remaining Hamlets and Toddycomboo proper forms the average rate of assessment for this discription of lands in the Zemindary.

Farms of the different Ryots.

25 This detail shews the fields by name each Ryot possesses their Measurement, and the rate of Assessment on each field and on each Goontah - this rate of Assessment is formed as well from the Judgement of the Surveyors as from the consent of the Ryots of the Village who with the proprietor of the Lands, were always present at every valuation and fully canvassed every rate of Teerva, ere the rate itself was made -

26. From this detail the farm of Tilla (No. 1) in the Coolwar Statement appears first in the Village, and the garden land attached to this Farm under the name of the Puleamarum (Tamarind Tree) Garden appears to be one field, containing three Goontahs eleven and ½ Anas rated and settled at thirty fanams per Goontah giving as its total assessment 11 (chs) 1 (fs) 9 (a). as already entered in the Coolwar Statement

27 The remaining Garden lands of this Village stand each as they were rated in the Stulwar accounts each garden bearing its own particular name, so given either from its situation, trees or buildings in it, or remarkable rocks near it -

28 The Hulwar account of Chettinaigputty

vide Hulwar No. 1 Custom, Shews the Nautumear Natchypillay Garden Land (Echady and Tholocum) its quantity rate of Teerva, and fixed assessment, in like manner as for the same description of land in the Cusba of Toddycombo.—

29 In requesting the attention of your Board to these details, my special object is to Shew, that the General rate of assessment is easy, and that "if the particular rate on particular fields, appear heavy in account the locality in respect to consumption of produce or the quality of the land in respect to the quantity of produce, is the General Cause" on these subjects, I shall hereafter have the pleasure of remarking at present, I wish to Carry your Board thro the detail that should any error have occurred, I may avail myself at the full assistance of your Board in rectifying it—

vide Mouzawar Statement No 2 Col 56.

36 It will doubtless occur to your Board, that the average rate of rent per Goontah for the Garden lands (in Toddicombo) and in Chittinaigputty comparatively in the abstract Statement so differ much, that the average rate on the Poonjie Rate (or feilds of dry grain) in the two Villages differ more, that the Comparative average of both description of Lands are still farther in value each from the other and that the average of both partially Constituting a Zemindary, exceeds the total average value of the forty Zemindaries.

vide Mouzarawar Statement Toddicombo Col 1 to 14

38. This difference arise from the different rates of Assessment in each Village - rates in Toddycombo &c from 35 fanams to four fanams per Goontah Comprising with

and

and within these extremes, fourteen different rates of assessment which are specially placed on the total Garden land 278 Goontah 9¼ as. according to its quality and situation

39. In Chittynaigputty the rates from 35 fanams to 8 fanams per Goontah containing twenty one different rates of assessment, which also are placed on the total Garden Land — 303 Goontah „ 11½ as. according to its quality and situation — the average of the higher rates of Teerwa in the Village on its own greater number of Goontahs of Garden lands, gives an higher value than the lower rate of Teerwa in the lesser number of Goontahs of this description in Toddycombo —

[Margin: vide 12½ per Cent in Para 37. Toddycombo 2„2.12½ Chittinaighputty 2.5 10½ difference 2 14 equal 12-9-11¾ percent —]

40 In regard to the difference in the Poonjee land, on comparison, it will appear that ~~of~~ the land of Chittinaigputty is better than the land of Toddycombo — In this Village the rate of assessment is made from 13 to 2 fanams per Goontah, containing ten different rates of assessment

[Margin: vide Mougarawar from Col 16 to 25 inclusive]

41 In Chittynaigputty the rate of assessment is from 15 fanams to 2 fanams containing fourteen rates of assessment according with the quality of the soil in this as well as in Toddicombo.

vide Mouzarawar No 1 and 2

43. That such difference should be in Villages joining each other, will at first view surprize, but the conclusion must not be drawn from these Coloumns a reference being had to the details of the Poonjee fields. It will appear, that the greater part of the land of Chittenaigputty bears an higher rate of Assessment than the lands of Toddycombo.

vide Col. 60 in Mouzawar Statement

44. This rate of assessment in Chittenaigputty, when averaged on the total Poonjee fields Cultivated in its Village gives a far greater rate of average value in Comparison with Toddycombo in consequence of its average, being taken on a much less number of Goontahs the total Poonjee fields Cultivated in Chittenaigputty being 2,880 Goontahs 7 as and in Toddycombo the greater number of 9386 Goontahs.

Mouzarawar Col. 23 to 33 inclusive

Mouzarawar Col. 16 to 22 inclusive

45. Of this land in Chittenaigputty Vizt 2880. 7 Goontahs 1684 10 are assessed at from 15 to 5 fanams per Goontah and of the Poonjee fields in Toddycombo Vizt 9386 1464 2½ only are assessed at those rates the proportion this land of Chittenaigputty

bears

bears to its total, equals about 58½ per Cent whereas the lands thus assessed in Toddycombo Viz.t goontah 1464. 2¼ equals on its total about 15.9⅜ percent only.

46. The lands of inferior rates from 4 fanams to 2 fanams per Goontah in Chittinaigputty are goontahs as 1195.13 giving to its total Poonjee fields cultivated 41¼ per Cent and the lands thus assessed in Toddycombo are goontahs as 7922 5¼ bearing on its total Poojee fields Cultivation about 84.6 7/16 percent, thus the difference appearing on the average of each Village, is easily explained and perfectly corresponding with the reason already given.

*vide Mouzawar Statement Col. 34 to 36 inclusive.*

*Vide do Col. 23 to 25 inclusive*

*vide Para 45*

47. The average value of the Garden lands and Poonjee fields together is according to the rates before noted apparently 82.10 per Cent more in Chittinaigputty than in Toddycombo. The details in the rates of assessment already remarked, bring it to this difference of rate of Teerwa, and the explanations whilst shewing how it happens fully confirm its consistency with them.

*Toddycombo 4-¼ diff.e Chittenaigputty 7-6¼ 3-5¼ equal to 82. 10 per Cent*

*Vide Mouzawar Statement No 1 & 2*

48. The proportion of each discription of lands in Toddycombo and Chittinaigputty to the Cultivated Poonjee, is in each as fallows. The total of Toddycombo a Comprising goontah as 9665 2 and the total of Chittinaigputty 3184 2½ Goontahs only.

49 Hence in the great difference of 82 10 per Cent noted in the destinct average Teerwa value of the two Villages, will be seen an additional reason for such average in the larger number of Goontahs of Garden land (independent of higher rates) being calculated on the lesser number of Goontahs of Cultivated Poonjee in Chittenaigputty and the smaller number of Goontahs of Garden lands being taken on the much larger number of Cultivated Poonjee feilds in Toddycombo. —

[p. 29]

50 This mode of reasoning thro the details applies generally and in the particular manner of it to the total average on the forty Zemindaries, and shews the reason of the average rate of Teerwa of Toddycombo, being greater than the total average rate of assessment on the Poonjee cultivated lands of the forty Zemindaries

vide Ain Statement Col 71.

53. The average rate of Teerva on this description of Land in the Toddycombo Zemindary is less than the total average rate 15 11 per Cent - and this difference is on account of locality with respect to water those Gardens for which water is drawn from wells, ever being of less value, and costing more labour than those watered from Nullahs or from rivers, and the produce always less certain -

Vide No 11 Mougara-war of Toddicombo and No 48 in Coolwar Statement No 11.

54. It may be right to shew as briefly as may be consistent with perspicuity this difference, and it may perhaps best be done by noting that in Bodiporam the Gardens are watered by a Tank giving water only four months in the year -

Coolwar No 48 for these Gardens, gives the rent now settled Viz.^t 5 6 6 Ch^s per Annum per Goontah to the Sirkar, and this rate of rent,

Col. 22. Calculated on Veerapilly's Garden of 1 goontahs ¼ gives the total Teervah enterred in the Schedule

56 It May be noted here that the Ryots Share is too great in proportion to the Sirkar — the reason which Custom has advisedly perhaps directed is, that the expence of watering is included in the Ryots Share and that even with every industry a failure of the Tank, causes a particular failure of the Crop —

57 The Zemindary of Battalagoontah exhibits

exhibits the rent of 8 cchs 5 fs per Goontah, the highest rent of this description of land – this proceeds from the Gardens being fully watered all the year by Nullahs from the rivers and the produce from which this high rent is divided, is as follows

| | | | |
|---|---|---|---|
| From the Betel vines | 111. | 6. | 15 |

which divided on the time for which the Cowles are given yeilds 8 cchs 5 fs per Goontah per Annum.

58 In this Zemindary, from the favorable situation of the Garden lands, and consequently less probability of failure in the produce, the increase of the Circar Share is made.

59 The lowest rent for this discription of land, is that paid for the Gardens in Cullimunda Zemindary, amounting per Goontah to 3 cchs which arises from wells wholly

60 In observing the average rates of rent on (Daunmuddy or) the Paddy feilds the great difference in many Zemindaries will without explanation be a matter of astonishment the reference to the distinct Villages of Toddycombs and Chettenaig putty, will shew a very great difference – but when the lands giving the average noted, are compared in quantity and quality with those in the different Villages, to which they are joined, and the mode of average is attended to these seeming difficulties will be easily reconciled –

116 The decrease in Fusly 1212 in this Settlement, has reference to the Causes before noted on, and your Board will remark that these Zemindaries relate wholly to what formerly Composed the Veerapatchy Pollam, the assumption of which took place in Fusly 1210 and when the Cultivation for that year, was made and ascertained

117 The Peons of the Poligar, who held lands and whose cultivation in that Season (1210) enabled the Nautameears to pay the partial Settlement left partly those lands in 1211, and several of them wholly in 1212 following their inclination generally as to their place of residence this defect thence partially arising in Veerapatchee Pollam, is compensated ultimately in other places wherein these people have settled, and the increase of 21. 5 8¾/16 per cent on the full Settlement, shews

that

that their emigration was very trifling in its effect on the revenue of these Zemindaries.—
